## ANOTHER BOND ISSUE PROBABLE

A Statement Made by Those Qualified to Know.

MORE GOLD WILL GO OUT.

A CONDITION THAT MUST SOON CONFRONT THE TREASURY.

Present Condition of the Exchange Market and the Commercial Situation Generally Indicate That Big Demands Will Soon Be Made Upon the Treasury-May Be Staved Off Until Early in the New Year.

WASHINGTON, Dec. 9 .- The statement is made by those best qualified to judge that in the absence of legislation to relieve the financial situation, another bond issue is altogether probable within the next few months at the farthest. The present condition of the exchange market and the commerclai situation generally, it is said, point unmistakably to further large withunmistakably to further large withdrawals of gold, and without something is done to prevent the usual
heavy exports during January and
February, which for the last two years
have forced the issue of bonds to recoup the depleted gold reserve, a similar situation will confront the treasury before the new year is far advanced. The available cash balance in
the treasury today, including the reserve, is approximately \$175,000,000 and
as the government has realized from
its three bond issues about \$182,000,000, it
appears that but for these issues
the government would now be without
one dollar in the treasury and in addition would have outstanding obligations amounting to about \$6,500,000. The
excess of expenditures over the receipts amount to about \$130,000,000. The
exports of gold during the last four
months have been \$2,766,000. So far
this calendar year the amount is \$95,000,000. In 1894 the exports amounted
to \$101,819,924. From the best information obtainable it is believed that the
present month will show a surplus of
at least \$1,000,000, which will leave a
deficit for the fiscal year to Jan. 1, of
about \$15,000,000. It is expected that
this amount will not be materially increased during the remaining months
of the fiscal year. drawals of gold, and without someof the fiscal year.

#### MUNICIPAL ABUSES.

They Cause a Great Demonstration at Madrid.

MADRID, Doc. S .- A gigantic demonstration took place here today against the abuses of the municipal administrathe abuser of the municipal administration of Madrid. The gathering took place
on the Plaza del Torres. All the shops
were closed and the infantry and cavairy of the garrison were field in readiness for action. But there were no disturrsances. ExPremier Sagasta, the Marquis di Voga, the Liberal and Republican senators and deputies and memoers
of political parties, ecclessastic and merciants were present. The meeting today
was the indirect outcome of an assault
recently made upon the Ma quis de Cabriana, son of General Cabriana, a
young Conservative nobleman, famous
as one of the best horsemen, swordsmen
and cyclists in Spain, At H o'clock on
Tuesday, November B, two roughs fired
several pistol shots at the young marquis, while the latter was passing
through a strest close to the royal museum of painting. This attack was due
to the fact that the marquis had made
himself conspicuous recently by his courageous attacks upon the notorious abuses
of the municipal administration of Madrid.
Alembers of the municipal council who

who were competent to testify to the truth of his charges.

The publication of these letters caused a tremendous sensation and the newspapers of all shades of opinion called upon the courts of justice to intervens in the

matter.

Eventually a petition in strong words was addressed to the mayor, Count Penaive, by eighteen of the municipal counciliors, asking for an extraordinary and secret session of the municipal council. At that meeting the counciliors accused by the Marquis de Cabrina were to be called upon to furnish explanations.

In spite of the efforts of the authorities, the assailants of the marquis succeeded in escaping, aithough they were pursued by watchmen and by the marquis himself, who fired three shots at them.

them.
Later, when the attempt upon his life was investigated, the marquis informed the magistrates that he had already handed to the public prosecutor a number of threatening anonymous letters which he had received, and he declared which he had received, and he declared aich he had received, and he de night had been frequently followed at night roughs armed wild sticks who had no roughs armed wild sticks who had no

WASHINGTON, Dec. 9.-The report of Past Assistant Surgeon R. E. Stitt, who accompanied the Nicaraguan cammission on its trip of inspecnal commission on its trip of inspec-tion last summer, upon the climatic condition of the country through which the proposed canal would pass, has just been published. Generally speakjust been published. Generally speak-ing, the surgeon finds that these cli-matic conditions are much more favora-ble than has been supposed. For in-stance, he shows that at Greytown, the eastern terminus, the mean aver-age dally temperature rarely exceeds \$0 degrees or falls below 75; and yellow fever is unknown there, although there are permicious fevers of the hemorr-hare type. The absolute flatness of The absolute flatness of the country, with a very absorbent sandy soil, freely traversed by winds from every quarter, prevents any ac-cumulation of malarial deposit. On the west side the malarial affections predominate and the fever resulting, sometimes mistaken for yellow fever, has a high mortality rate—about 75

Typhoid is unknown, kidney diseases Typhoid is unknown, kidney diseases are rare and the climate tends to the cure of catarrh. Pythsis is quite common, as well as skin diseases. Snakes are not plentiful. Black ants are ferocious. Mosquitos are worse than in the United States only because of their greater number; and gnats, horse-files and ticks are plentiful. Not a single day was lost by any of the party on account of sickness. While the cutting of the canal tray be a source of disease for a time, the ultimate effect of the construction would be beneficial.

These items must reach our city editor on or before Friday of each week at 7 p. m. and will be published Saturday

morning. The awards are to be based upon: First -Quality; second, quantity; third, excel-lence in composition. All news must must be written on one side only at marked with the name, age and articles of the writer, and the grade and school he or she attents.

Address, City Editor Herald, Sait Lake City, Utah. WILL "INSPECT" THE ROAD.

County Selectmen in a Quandary

Over the "States." The members of the county court will this morning go to Big Cottonwood canyon for the purpose of in-

wood canyon for the purpose of in-specting and looking over the road con-structed by the Big Cottonwood Power company at the head of the "stairs."

It is evident that there is going to be some trouble over this bit of road. The farmers who live in the vicinity and who has I a great deal of wood from the canyon, say that the grade is so steep that it will be the next thing to an impossibility for them to get their wagons up this grade, while those who have the work of hauling mining supplies up the canyon declare that no team, no matter how powerful. that no team, no matter how

can get over the grade with anything like a load.

Those who are familiar with the Those who are familiar with the topography of the section referred to will understand that at the point where the road crossed the creek at the h'ad of the "stairs" is now the deepest part of the reservoir of the company. In order to give the county a road, work was begun at a point where the grade ceases and a road was constructed at great expense to the south of the once trayelled route up along grade ceases and a road was constructed at great expense to the south of the once travelled route up along the side of the hill to the projecting point which was blasted down while a bridge across the stream was constructed about 200 yards north of the point where the theroughfare once crossed the stream. The Power company expended a great deal of money in making this road and as far as construction goes it is a good piec of work. The only objection which he raised is the grade.

The selectmen are in a stew over the matter, as if they accept the road the farmers and residents will all join in one grand protest. If on the other hand the voice of the people is heard and heeded, then the company is likely to raise the cry of bad faith.

As a matter of fact there should be no difficulty in the case at all. Geddes

partment has been recently conducting an unusually vigorous prosecution against these and like concerns as frauds and lottery enterprises.

ONLY TEMPORARY.

COLUMBUS, O., Dec. 9.—President enough to have come to some reasonable conclusion long ere this. Mileague enough has been charged to have erected a bridge across the resevoir, which would have been the cheapest which would have been the cheapst way of solving the question. All the selectmen will go out today. Judge McNally was invited to go along

# but as he has the probate business to attend to, he will remain in the city while the erstwhile mileage makers solve the problem.

A CHANGE. MILWAUKEE, Wis., Dec. 2.—President Miller of the Chicago, Milwankee & St. Paul railway announces the appointment of E. J. Earling general manager of the road, as second vice president, in place of Mr. Ripley, who goes to the Santa Fe. Mr. Ripley has been third vice president.

A. C. Burd, general traffic manager, will have practically the same duties that Mr. Ripley had, and Mr. Earling will continue as general manager.

## SUMMONS.

He made a second-base side for it, says the Florida Times-Union, and when he had it safely coralled beneath him he rolled his eyes around the points of the compass to see if another gamin had also seen the stump fall.

"Dat war in Cuba is making Havanas skace, an' you can't take no chances," he remarked, as he brushed off the asiand blew away the sand from the coveried snipe. Coing into the store he said to Charle Ellis.

"Boss, gimme a match, please, sah?"

"Matches are not here to give away, but to sell," said Mr. Ellis, assuming a look of Intense severity.

"Dev is, ch?"

"That's what they are."

"Well, how much are dey er box?"

"One cent."

"The gamin tilted the stump in one corner of his mouth, held so the band of his pantaloons with one hand, ran the other thand in his pecket and pulled forth a copper.

"Gimme a box," and he laid dayn the cent.

He got the box, struck a match, lit the stump so well that it poured forth volumes of smoke and then handed the box back to Mr. Ellis, assuming a look of intense severity, and said:

"Put dat box on de sheff, an' de nex time a gemmen come in hyar an' ax you fer a match, you gin him one outen my box."
